Subject: Ash Grove Cement M/023/004 Bond

I talked with Ted Fitzgerald, Fishlake NF 896-9233, about the replacement bond for the Leamington Quarry. There is no USFS land included in the existing approved plan. There is, however, existing unpermitted disturbance on USFS lands associated with what Ash Grove calls the Burma Road. The USFS will not release the existing bond until Ash Grove posts \$5,000 for the unpermitted road disturbance. Because of this existing disturbance the Division can list the USFS on the replacement joint surety bond. After the Division and Board have accepted the replacement bond the USFS will need to be notified in writing so they can release the old bond. Ted will pass this message on to Bill Wright at the Fillmore Ranger District. Ted mentioned they have reviewed Ash Grove's recent plan revision and have some comments. They will be coordinating their review comments with us when available.
